

Subject: Rate restoration – Asia to Fiji – ANZEX service

Marseille, le 21/02/2018

Dear customers,

CMA CGM, through his ANZEX service offers a premium service from Asia to Pacific Islands.

For a few years now, freight rates on this trade have been sharply deteriorated, whereas our operating costs are increasing.

In order to maintain a premium service on this trade: 'Asia to Fiji', we need to apply a rate increase of \$150 per teu, for all dry, reefer and special equipment.

The rate restoration will be implemented from the 02nd April of 2018, and will be applicable for all cargo loaded from the BL date.

Thank you for your support,

Truly yours,
CMA CGM
